New products in development. More accurate information coming soon.

New products not available this season.

Examples of corrosion-prone areas include:

- edging features such as rims
- air gaps
- tubular parts
- areas subject to friction, such as folding mechanisms
- areas where the properties of the material have changed as a result of heat (such as from laser cutting or welding).

## MATERIALS

At Fermob, we pay special attention to the materials we use. For instance, we source only high-grade steel and aluminium.

And we choose which metal to use based on the product design and associated requirements:

- steel gives the product stability and durability
- aluminium is soft, lightweight and easy to weld.

## PAINT AND SURFACE TREATMENTS

All Fermob metal products are painted with a **100% polyester powder coating**, which offers better UV resistance than standard epoxy paints.

All our paints undergo a series of standardised tests before release:

- UV resistance
- colour-fastness
- hardness (scratches and abrasion)
- moisture resistance.

The paint is **applied electrostatically to the furniture for an optimal coverage**, then baked at very high temperature.

And to make our products even more resistant to corrosion, **we apply surface treatments before painting, either as standard** (galvanisation, electro-galvanisation, electrolytic coating), **or as an option**.

### NEW

#### ANTI-CORROSION PROTECTION RATING

**NEW:** Fermob has introduced a new **Anti-corrosion Performance Rating (IPAC)** for all metal items of furniture. The rating is an indication of the product's anti-corrosion performance, combining three factors: **design, material and surface treatment.**

Since all our items of furniture are designed for outdoor use, we systematically apply a surface treatment and high-performance outdoor paint to offer the very best protection against corrosion.

**On a scale from 1 to 10, all Fermob furniture has a minimum IPAC rating of 6.**

All products bearing this logo are eligible for additional, optional anti-corrosion treatment (contact our sales department).

The 1<sup>st</sup> figure gives the basic rating and the 2<sup>nd</sup> figure in the upper right-hand corner gives the IPAC after additional treatment. Depending on the products and their design, the IPAC enhancement may be different.

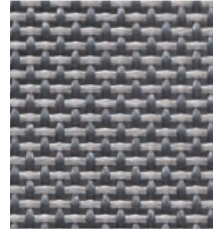

## 2- THE OUTDOOR TECHNICAL FABRICS (ISO, DUO OR STEREO)

We use Batyline® **Outdoor Technical Fabrics** (OTFs) on our products, sourced from market-leading **French manufacturer Serge Ferrari**. The fabrics are made from **high-tenacity 100% polyester thread, protected with a solution-dyed PVC cover**, guaranteeing:

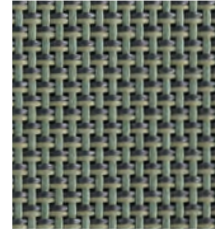

- a hard-wearing, tearproof product (can withstand loads of up to 4 tonnes per square metre)
- a seat that doesn't sag (the fabric retains its shape after use)
- a design look that lasts.

The manufacturer handles **all four phases of the production process in-house**:

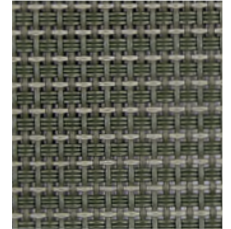

- creating the polyester thread (core)
- extruding the PVC thread (cover)
- weaving the fabric
- thermo-fixing the fabric.

OTF Batyline® ISO

OTF Batyline® DUO

OTF Batyline® STEREO  
Fermob exclusivity

Batyline® is the **best-performing outdoor fabric money can buy**. The Stereo fabric is developed **exclusively for Fermob**.

Batyline® is particularly suited for an outdoor use because it:

- is UV-resistant (colours do not fade over time)
- stays cool
- does not hold water
- anti-mould and anti-stain treated
- hypoallergenic
- offers a flexible and comfortable seat that retains its shape
- is easy to clean with soap and water.

## LIGHTING

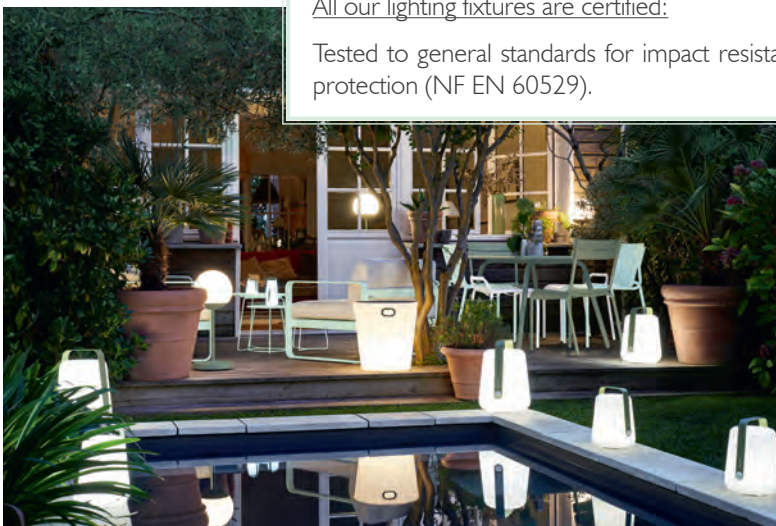

**Fermob's lighting fixtures boast the same exacting qualities as the brand's furniture:**

- **Premium materials and electrical components** (aluminium, polyethylene, LEDs, etc.),
- Exclusive use of materials recognised for their **OUTDOOR** robustness, sourced from globally recognised suppliers,
- 100% polyester powder coating, resistant to UV rays.

All our lighting fixtures are certified:

Tested to general standards for impact resistance (NF EN 62262) and ingress protection (NF EN 60529).

**SGS**

INOUI

MOON!

## ACCESSORIES

Fermob's accessories are built to the same high standards as the brand's other products:

- Metal accessories (trays, trivets, etc.): are manufactured in the same factories as Fermob furniture, meaning they are designed with the exact same materials (metal, paint, etc.).
- Textile accessories (cushions, etc.): are designed in conjunction with experts (stylists, designers, manufacturers, etc.), all selected for adhering to the same exacting standards as Fermob. **Our Jacquard and printed fabrics are made in France.**

All Fermob textile accessories are made with fabrics that meet relevant standards and undergo resistance tests.

Examples :

- Colour-fastness (sunlight and inclement weather) Standards: ISO 105-B04 & 105-B02
- Abrasion and friction resistance Standard: ISO 12947-1 (Martindale method)
- Tear resistance Standard: ISO 13937

**SGS**

## WHAT MAKES A GOOD OUTDOOR FABRIC?

- A fabric that has **technical qualities enabling it to withstand sustained outdoor use without deteriorating** (colour-fastness to UV rays, water-repellent, resistant to stains and mould, etc.)
- A fabric that's easy to keep clean (removable cover, machine-washable, etc.).

## NOT NATURE

Fermob furniture is designed to live outdoors, and is made using materials and processes that respect the environment.

### CONTINUALLY IMPROVING OUR ENVIRONMENTAL IMPACT

Optimising energy consumption remains one of Fermob's key concerns, as regularly demonstrated through concrete action:

- Reducing the temperature of our ovens (-10°C in 25 years),
- Setting up a stoving process that consumes 10% less energy,
- Investing in a new painting line, saving 8 tonnes of powder per year,
- Reduction in our water use (30% reduction in 5 years)
- Reduction in our electricity use, with the addition of LED lighting (5% reduction in 5 years)

### ECO-DESIGNED FURNITURE

Environmental concerns have always been at the heart of the design and aesthetic qualities of Fermob's creations, together with their lightness and resistance, helping us **save materials** and **limit waste as well as transport impact**.

### METAL: AN ENVIRONMENTALLY FRIENDLY CHOICE

**Some 98% of all iron and aluminium is now recycled worldwide.** This means that Fermob can guarantee that its furniture is **fully recyclable – and recycled**.

**écomobilier**

In 2013, we teamed up with **Eco-mobilier**, an environmental body that **collects used furniture to give it a second lease of life**.

The organisation's purpose is to arrange for the collection of unwanted furniture and, in doing so, to meet government recycling and recovery targets. Fermob contributes to this endeavour by:

- **Encouraging customers to donate** unwanted items of furniture to charities and social enterprises for recycling.
- **Supporting eco-design** research.
- **Keeping customers informed** about how the eco-participation tax is used.

### ECOLOGICAL PAINT THAT PROTECTS BOTH THE ENVIRONMENT AND YOUR HEALTH

The powder paints used by Fermob contain **no solvents**. They are **100% recycled and recyclable**. They are applied in a **zero-waste facility**, with successive dips making our products guaranteed for outdoor use..

**RECYCLED FABRICS**

Fermob sources its outdoor fabrics from suppliers that adhere to the strictest sustainability standards.

**RECYCLABLE LAMPS THAT CAN BE TAKEN APART**

**Our lamps are made from environmentally materials :**

- Metal, a 98% recycled material,
- Polyethylene, which can be recycled multiple times,
- LED lights.

Since launching its lighting collections, Fermob has worked with **ECOSYSTEM** (formerly Eco-systèmes/Récylum, or ESR), **which manages waste electrical and electronic equipment**, and with **Screlec**, which **recycles batteries**.

**RECYCLED AND RECYCLABLE PACKAGING**

Fermob has been participating in the CITEO (Eco-emballage/Ecofolio) scheme for many years now.

We help turn our everyday products into new resources, and we are firm believers in getting the packaging just right – using eco-designed packaging that contains as few raw materials as possible.

**All of these actions align with our extended producer responsibility (EPR) approach, and with our values...**

# The Fermob guarantee

## CHARTER

### THE EUROPEAN FURNITURE GUARANTEE

When we design our products, we pay special attention to three key aspects:

- making sure the piece will continue to fulfil its intended purpose for many years to come
- anticipating how it will age as time passes
- designing it so it is suited to our customers' requirements.

As a manufacturer, we have a duty to guarantee that our products are fit for purpose, no matter how our customers use them.

We never stop listening to our customers. That is why we have amended our European Furniture guarantee to reflect painstaking laboratory testing and customer feedback.

- Because we use only the highest-quality materials and finishes, we are now in a position to go one step further and offer two separate guarantees – a 5-year functional guarantee on all our items of furniture, plus a 2-year ageing guarantee, **provided that the product is used as per our recommendations.**

FUNCTIONAL  
GUARANTEE  
5-YEAR

AGEING  
GUARANTEE  
2-YEAR

Each of our products comes with a recommended usage setting, so you can better cater to your own customers' requirements and keep the guarantee valid:

1. **Domestic:** product designed for private use in non-public spaces such as gardens, winter gardens, patios, terraces and balconies.
2. **Professional:** product designed for professional use in supervised public spaces such as restaurants, outdoor pools, beaches and recreational facilities.
3. **Intensive professional:** mobile product, not fixed to the ground, designed for professional use in unsupervised public spaces such as motorway service stations, public parks and squares that are accessible around the clock.

#### • 5-YEAR FUNCTIONAL GUARANTEE

Fermob guarantees that products will remain fit for the purpose for which they were designed for 5 years. The guarantee covers all functional aspects of the product such as welding, fasteners, rivets and folding.

**If a product is not used as per Fermob's recommendations, the functional guarantee is reduced to 2 years.**

#### • 2-YEAR AGEING GUARANTEE

The speed at which a product ages depends on how carefully it is treated by customers. Please read the exclusions so you can advise customers how to care for and maintain their products.

The ageing guarantee covers premature and abnormal deterioration in the appearance of the product's materials.

**Fermob's 2-year ageing guarantee applies in Europe (excluding Russia) only. Elsewhere, the guarantee is 2 years for aluminium furniture and 1 year for steel furniture.**

**THE AGEING AND FUNCTIONAL GUARANTEES DO NOT COVER:**

- Damaged, converted or modified furniture.
- Furniture not used as per Fermob’s recommendations.
- Any damage arising from insufficient care, or from failure to comply with the supplied instructions and advice for receiving, assembling, using, maintaining and storing furniture supplied to the customer.
- Rings or stains undeclared when unpacking (including stains related to a combination of humidity retention + heat).
- General wear and tear or natural fading of the materials used.
- Corrosion originating from scratches or abrasions that result from general wear and tear and which cannot be removed via standard cleaning and maintenance processes.
- Minor spots of rust under table tops and seats or on bases. These are a natural outcome of the material used (iron) and can be treated using the maintenance tools made available to customers by Fermob.
- Corrosion of stainless steel parts due to use in a confined, chlorinated environment.
- Corrosion of steel furniture (including stainless steel furniture) as a result of use in a coastal environment.
- Any changes in the visual appearance of wood that are directly linked to ageing. As wood is a living material, the appearance of its surface changes naturally over time.

This guarantee is limited to reimbursement (with application of a reduction) or replacement of the product, and applies only upon presentation of the purchase receipt (cash register slip or purchase invoice).

**THE EUROPEAN LIGHTING GUARANTEE**

Fermob’s lighting products are just like its furniture: designed for outdoor use and made from premium-grade materials and components. They are covered by the relevant statutory European guarantees, and meet European standards and certifications (such as NF EN 62262).

USE	DOMESTIC	PROFESSIONAL	INTENSIVE
GUARANTEE	2 YEARS	1 YEAR	-

**THE EUROPEAN ACCESSORIES AND PARASOLS GUARANTEE**

Like its furniture, Fermob accessories (cushions, etc.) and parasols are designed to last, based on a careful selection of materials. They are covered by the statutory European guarantee.

- Acrylic textiles and PVC are guaranteed against UV, wear and tear, mould and tearing.
- Reticulated foam filling is guaranteed against mould.

USE	DOMESTIC	PROFESSIONAL	INTENSIVE
GUARANTEE	2 YEARS	1 YEAR	-

**THE GUARANTEE (LIGHTING / ACCESSORIES / PARASOLS) SPECIFICALLY EXCLUDES :**

- Lamps, accessories or parasols that have been altered, changed or modified.
- Damage related to a lack of proper care or failure to observe the precautions (e.g. do not open the lamp) and advice for use, maintenance (e.g. close your parasol during inclement weather) and storage provided to the customer.
- Rings or stains not declared when unpacking.
- General wear and tear or natural fading of the materials used.
- Corrosion originating from scratches or abrasion resulting from general wear and tear and which cannot be removed via standard cleaning and maintenance processes.
- Metal components for lights, parasols and accessories are covered by the same guarantee terms and exclusions as items of furniture (see above).

This guarantee is limited to reimbursement (with application of a reduction) or replacement of the product, and applies only upon presentation of the purchase receipt (cash register slip or purchase invoice).

For intensive product usage, please contact our sales department for advice.

**The local statutory guarantee applies outside the European Union.**

# Cleaning our furniture's surfaces

## OUR ADVICE

### I - DISINFECTING YOUR FURNITURE

#### ROLL-OUT OF A SOLUTION FOR PROFESSIONALS

We are able to offer to our professional clients a **viable disinfectant solution** with:

- **Two types of hand-held spray bottles**, developed specifically for COVID-19 by the company Berthoud, with a volume of 1 litre (small size) or 5 litres (large size).
- **A professional disinfectant** (called HAGRAL SPRAY SR), ready to use, doesn't require rinsing, is a virucide, according to the decree of 13 March 2020, is **compatible with surfaces which are in contact with food and is colourless and odourless**. A 98% diluted bleach solution may also be appropriate.

Professional disinfectant  
HAGRAL SPRAY SR

1 Litre      5 Litres  
Hand-held spray bottles  
Berthoud

#### CORRELATIONS ESTABLISHED FOLLOWING APPLICATION TESTS

##### **Large size 5L**

- Surface covered **76 m<sup>2</sup>** (7.5 seconds/m<sup>2</sup>), or about 50 Alizé sunloungers (15 seconds/sunlounger)

##### **Small size 1L**

- Surface covered **15 m<sup>2</sup>** (15 seconds/m<sup>2</sup>), or about 30 Bistro chairs (15 seconds/chair)

*Under no circumstances can these two services constitute grounds for liability on the part of Fermob with regard to the product's appearance, their virucidal power or any other consequence related to their use.*

#### ADDITIONAL ADVICE

A non-exhaustive list of household products including degreasers, disinfectants, antibacterial products, sanitisers, hydroalcoholic gel, fungicides, virucides and multi-purpose products (Sanytol, Cif, La Croix, Mr Clean, etc.) have been tested in our laboratory. **Most of these commercial products are diluted or have a neutral pH and do not damage our materials.**

*This advice is provided in addition and is compatible with the general recommendations above; under no circumstances can this advice constitute grounds for liability on the part of Fermob with regard to the product's appearance, their virucidal power or any other consequence related to their use.*

## 2 - GENERAL CLEANING RECOMMENDATIONS

To preserve their original appearance, most of our materials require **basic precautions**. They can be damaged, to a varying extent, depending on the product type, by:

- **mechanical** factors: wear and tear, scratches, impact, distortion, etc.
- **chemical** factors: acids, bases, solvents, etc.

Our surfaces must therefore be cleaned in accordance with the following principles :

- **Systematically carry out a preliminary test on non-visible and restricted areas** to determine compatibility (e.g. under the seat or table top)
- **Do not use abrasive products** or products which may affect the condition of the surface (abrasive sponges, wire wool, pads, scouring creams or powders, dyed textiles which may leave marks, etc.)
- **Do not use aggressive chemicals** (solvents, alkaline detergents, etc)
- Beware of retention zones in which cleaning products can be trapped, leading to further damage
- **Comply with the conditions of use** of the products used (dilution, diffusion, application time, etc.)
- **Limit the use of high-pressure equipment** and comply with the operational instructions (application distance, pressure, nozzle type, temperature, use of chemicals, etc.)
- **Machine washable materials, following** the recommendations on the label (removable cushion covers, towels, etc.)
- **Do not immerse electronic products** and limit their exposure to aqueous products.  
Opt for dry cleaning.

**Our recommendations are as follows :**

**Use water, soapy water or a detergent with a neutral PH** (5 to 8) such as a household cleaner for dishes or windows

Apply with a **soft sponge** or a white soft cloth made of a non-abrasive material.  
**Rinse with water** if using chemicals.

Wipe clean

**The following products may be used** but they should be diluted and subject to extensive compatibility testing:

- Ethanol
- Bleach (98% dilution)

**We strongly advise against the following non-exhaustive list of products;** unless appropriately diluted, they could damage our materials:

- Alcohol, isopropanol
- Petrol, white spirit, solvents, dissolvents
- Hydrocarbons, caustic soda, ammonia
- Alkaline detergents (pH > 9)
- Acids
- Polish
- Products to remove graffiti
- etc.

# Fermob trends

## WHEN COLOURS TELL A STORY

Five years ago, **Fermob** set up a dedicated team to revolutionise the way it develops its colour chart. The aim? To maintain its position as an **inspiring, influential brand** – season after season. At Fermob, colour permeates every part of every process.

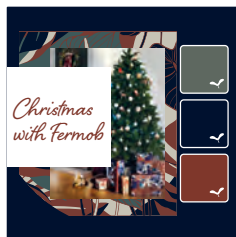

This season, the brand is once again consolidating its position as an **outdoor design and layout specialist** with a **selection of lamps and accessories based around four major colour themes**.

**And each one – natural, green, sunny and warm – tells its own story...**

The **four major trends for 2020/2021** will turn your retail outlets into displays fit to grace the cover of interior design magazines!

# BE SAFE

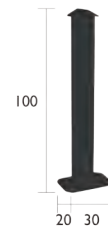

BE SAFE is a brand-new collection of products designed to help to **reconcile social distancing and conviviality, live up safety areas, and provide empathy by changing a few simple actions**, while enhancing the customer experience. These products draw on the know-how and values of Fermob, adding some **pleasure and joie de vivre as you welcome people back**.

# WELCOME<sup>®</sup> SMART SERVICE

SET YOURSELF APART WITH IMPECCABLE CUSTOMER SERVICE

A digital menu that guests can access instantly by scanning a QR code, featuring your restaurant menu (food, wine, ice-creams, etc.) and hotel services (concierge service, room service, breakfast reservation, etc.).

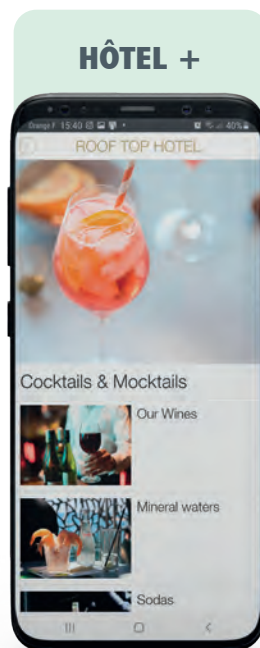

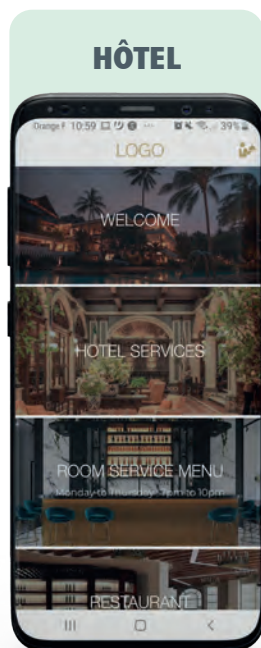

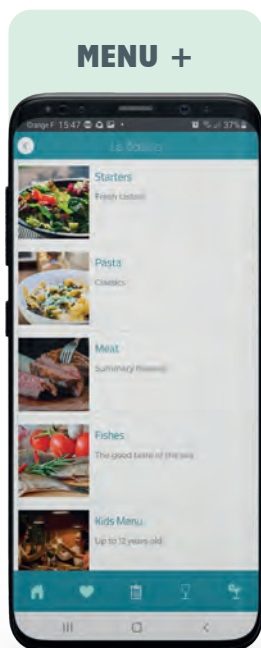

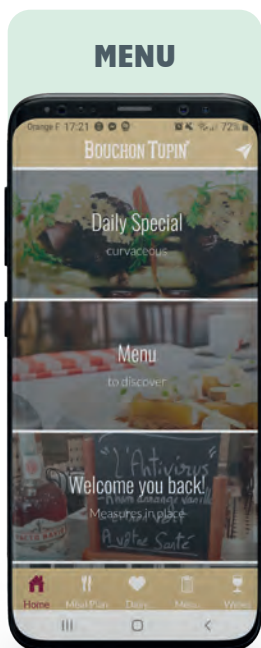

- A custom-designed interface featuring your logo, brand colours, selected photos and videos, etc.
- An enhanced customer experience with personalised, dynamic content (team bios, recipes, guest reviews).
- Easy back-office updates, instantly reflected in the user interface.
- Fully compatible with all smartphones and tablets, with no additional equipment required and no need to download anything from the App Store or Google Play Store.
- A fully configured, turnkey solution delivered within 72 or 96 hours (depending on the chosen package).

**NO HASSLE, NO APP,  
NO WEBSITE,  
NO WIFI, NO CONTACT**

*Four attractive packages, plus à la carte options  
to enhance your image and enrich the customer experience*

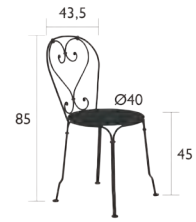

Scan the QR codes and try our demos for yourself

## FILLING : HIGH-RESILIENCE POLYURETHANE FOAM

### **Comfort foam**

density 17 kg/m<sup>3</sup>  
thickness 20 mm

### **High-resilience foam**

density 30 kg/m<sup>3</sup>  
thickness 140 mm

### **Firm foam**

density 65 kg/m<sup>3</sup>  
thickness 40 mm

### **High-resilience foam**

density 35 kg/m<sup>3</sup>  
thickness 90 mm

High-resilience polyurethane foam :

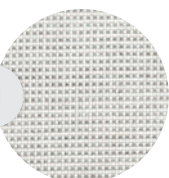

Polyurethane-based foam chosen by Fermob for its ability to return to its initial shape after being deformed, even after a long period of use.

## SUNBRELLA® FABRIC AND METAL COLOURS

- Aluminium frame- light, solid and easy to maintain - available in the 24 colours of the Fermob colour chart,
- Sunbrella® fabric developed exclusively for Fermob by Dickson company, the outdoor fabric specialist. Non-slip pattern. Available in 3 colours :

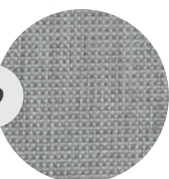

81

## OUR LAYOUT IDEAS

### Composition n°1

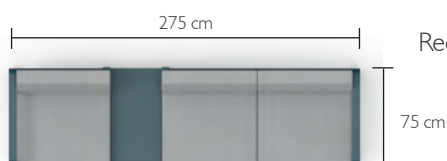

1-seater left (8511) or right module (8512)  
1-seater ottoman (8490)

### Composition n°2

2-seater central module (8520)  
2-seater ottoman (8494)

### Composition n°3

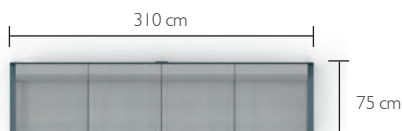

1-seater left module (8511)  
Rectangular connecting shelf (8452)  
2-seater right module (8522)

The **BEBOP**, **BELLEVIE** and **ULTRASOFA** low tables are the perfect addition to any layout. The choice is yours!

## Composition n°4

2-seater left module (8521)  
2-seater right module (8522)

## Composition n°5

3-seater sofa (8480)  
1-seater ottoman (8490)

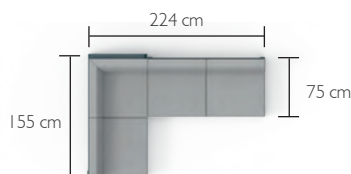

*Give your modules a sense of space!*

Use armrests, ottomans and connecting shelves to create corners and visual breaks and give your layout a more sociable feel. The connecting shelf is the ideal place to rest a glass, a plant, or a **MOON!**, **APLÔ** or **BALAD** lamp.

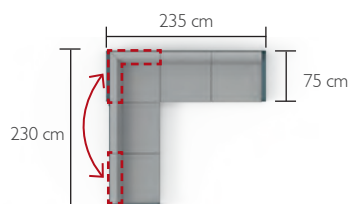

## Composition n°6

2-seater central module (8520)  
2-seater corner module  
- right (8524) or left (8523) -

## Composition n°7

3-seater sofa (8480)  
2-seater corner module  
- right (8524) or left (8523) -

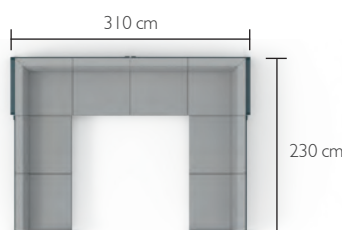

Reverse the sofa backrest cushion and the corner cushion of the corner module.

○ ————— *Composition n°8*

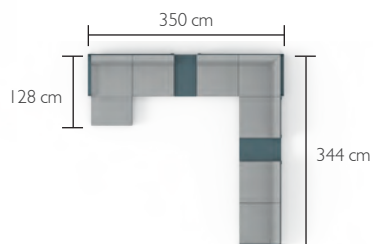

- 2-seater left module (8521)
- 2-seater right module (8522)
- 2-seater corner module
- right (8524) or left (8523) -

○ ————— *Composition n°9*

- 2-seater left module (8521)
- 2-seater left corner module (8523)
- 2-seater right corner module (8524)
- 2-seater right module (8522)

○ ————— *Composition n°10*

- 2-seater left module (8524)
- Rectangular connecting shelf (8452)
- 2-seater right corner module (8524)
- 1-seater central module (8510)
- Rectangular connecting shelf (8452)
- 2-seater right module (8522)
- 1-seater ottoman (8490)

○ ————— *Composition n°11*

- 3-seater club sofa (8530)
- 2-seater central module (8520)
- Rectangular connecting shelf (8452)
- 2-seater right corner module (8524)

L1200

## MUCH MORE THAN A GARLAND...

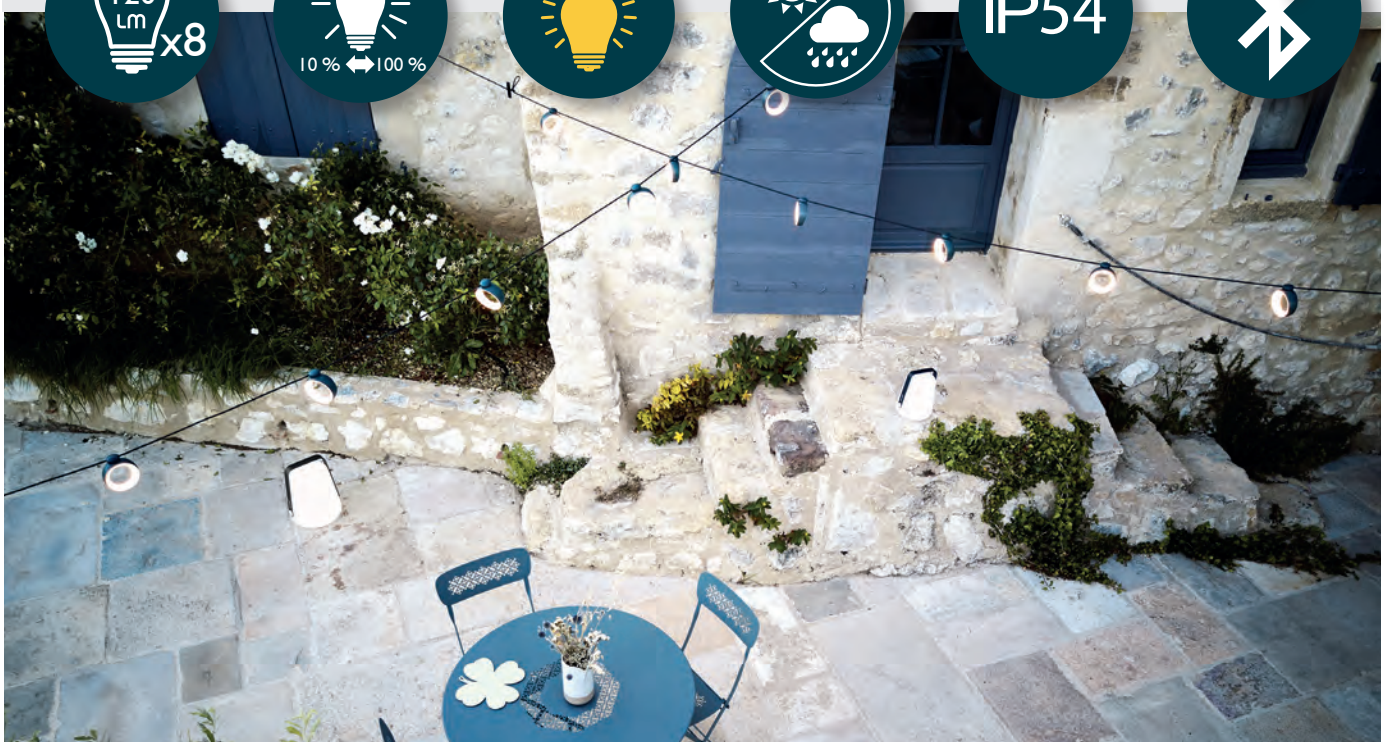

It's a fully fledged aerial lighting solution.

It consists of a 12-metre matt black cable, including a 6-metre hanging cable, plus 8 LED spotlights that are adjustable through 360° and 2 hook mechanisms, one at each end.

The dimmer switch, which is easy to access once installed, means it's equally suited to both a muted lounge area and a large, brightly lit table.

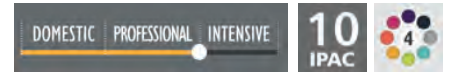

What's more, it's equipped with Bluetooth technology and can be controlled remotely with the Fermob Lighting app.

- 120 Lm x8
- 10% ↔ 100%
- 3000°K
- Weatherproof (Sun, Cloud, Rain)
- IP54

# Contract unit

## A DEPARTMENT DEVOTED TO PROFESSIONAL PROJECTS

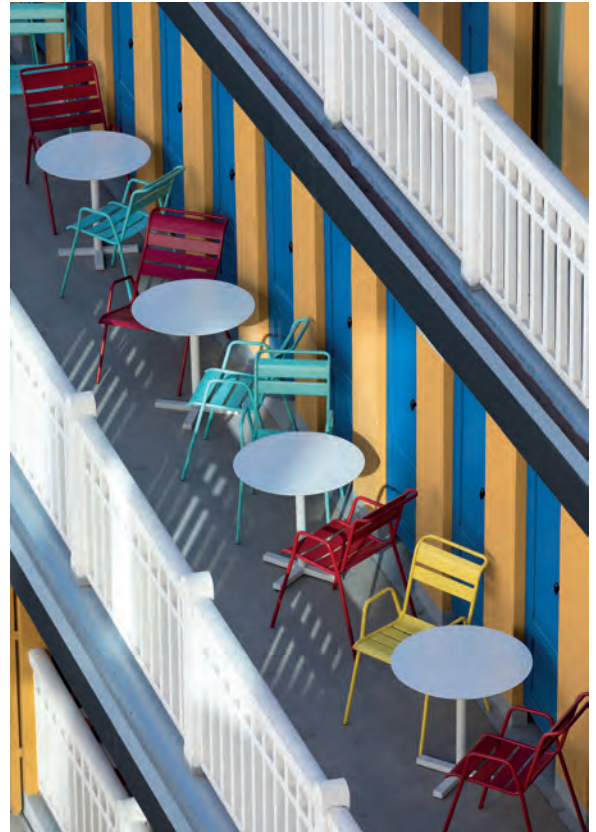

To professionals in the hotel and catering industry, retailers and shop-fitters, architects and landscape designers, who themselves deal with hotel and restaurant professionals, managers of public spaces or office exteriors, to all who sponsor projects that involve welcoming the public outdoors, all who design outdoor spaces, all who want the best for their customers, their guests, strollers, passers-by... **CONTRACT UNIT** is for you, all over the world.

As professional outdoor spaces are the showcases of both private and public institutions, they must be **personalized and attractive, and thought must be given to their every aspect** - furniture, lighting, separators, parasols and decorative accessories - to create uniquely styled, **complete layouts for all professional outdoor spaces.**

**Professional markets are long-standing markets for the Fermob brand.**

The Bistro chair, created from the Simplex model (a Fermob patent dating back to 1889) used to be sold to lemonade sellers! Since then, our professional catalogue has grown to **400 articles** across over **60 collections**, a huge choice that doesn't even include adaptations and bespoke pieces.

To coordinate our activity and offer the highest level of service, a **team of 30 people within the Fermob Contract Unit is exclusively dedicated to consulting and professional projects**: layout advice, developing 2D/3D plans and 3D files for your mock-ups, special articles, customized services, installation and assembly.

HOTEL MOLITOR, PARIS - FRANCE

## FOR PROFESSIONALS, BY PROFESSIONALS AND EVERYWHERE

HOTEL MOLITOR, PARIS - FRANCE

# *Architects, landscape designers and project retailers :* SUPPORTING YOU IN ALL YOUR PROJECTS

Architects, landscape designers, project retailers, designers and decorators play a key role in the choice of furniture for large layout projects. This is why Fermob supports them by keeping the documentation up to date (metal and colour charts, catalogues, technical documentation, etc.) and by providing them with 3D files for drawing up their layout plans for projects in the hotel and catering industry, for public spaces or office exteriors.

Find all our collections modelled on Pcon.

NESON MANDELA CHILDREN'S HOSPITAL, JOHANNESBURG - SOUTH AFRICA

## CONTRACT PROJECT ARCHITECTURE SERVICES

The Fermob Contract Unit team of interior designers and shop-fitters works in various fields such as the design of terraces, swimming pools/spas, balconies, rooftops, hotel rooms, entrance halls, public spaces, office exteriors, reception areas and waiting rooms.

Its main missions are :

- Advice on projects and decoration (moodboards)
- Space optimization: design and production of 2D plans
- Proposals for complete layouts: design and production of 3D plans

# Special contracts :

## BE UNIQUE!

Our Special Contracts division is available to offer you products that meet with specific **requests related to your brand identity** (charters, logos, etc.) **or to particular functional or made-to-measure design requirements.**

GRAND HOTEL DIEU, LYON - FRANCE / LASER CUTTING

FONDATION STAVROS NIARCHOS, ATHENS - GREECE / SPECIAL COLOURS

- **MARKING:** different types of logo, short texts or graphic design using either laser cutting or silk-screen printing on either metal or OTF.
- **SPECIAL COLOURS:** RAL, RAL DESIGN (lets you make finer distinctions between colours) or other colours on request.
- **ADAPTATIONS:** format modification, reinforcement, fireproofing on OTFs that allow it...
- **ATTACHMENTS:** to the floor or by cable.

PARIS-PLAGE, PARIS - FRANCE / MARKING

*Useful information :*

Minimum order for marking: 26 chairs / 10 tables.

# Special contracts :

## WHATEVER COMES INTO YOUR MIND!

### **New concepts, new catering trends = new needs.**

Because we offer an end-to-end production service in-house, we can develop metal products that meet your requirements.

The group's other know-how means that we can also offer you outdoor lighting, custom-made cushions and sunshades in your colours.

So use our tailor-made solutions to customize your outdoor equipment as you please, and let your clients enjoy a fine experience and unique moments.

APICIUS, PARIS / FRANCE

#### *Useful information :*

The Special Contracts division respects the entire process for accelerated product development :

- creation
- prototype
- resistance tests
- durability validation
- industrialization, etc.

TOGETHER IS BETTER!

In 2013, VLAEMYNCK, a French brand excelling in outdoor furniture and parasols for the hotel and restaurant industry, joined the FERMOB teams. VLAEMYNCK is a textile manufacturer and also a teak expert. CONTRACT UNIT offers products from both brands.

# Textile offer

## FOR SPECIAL PROJECTS

### TOGETHER IS BETTER!

In 2013, VLAEMYNCK, a French brand excelling in outdoor furniture and parasols for the hotel and restaurant industry, joined the FERMOB teams. VLAEMYNCK is a textile manufacturer and also a teak expert.

### What if we made parasols to match the main Fermob colours?

Fermob, the leading French manufacturer of metal furniture in 24 exclusive colours, and Vlaemynck, specialising in the manufacture of parasols. The **complementary know-how** of both brands makes full use of synergy for **an offer that makes sense for the design of attractive terraces.**

Check out our textile offer, matching the FERMOB colour chart, from your usual sales contact.

# Our layout TIPS

100 m<sup>2</sup>

*Green getting worked up!*

*Light on pastel...*

# In-store merchandising tips

## TO ENCOURAGE ADDITIONNAL PURCHASES

### Trivet

Use Bistro tables and magnetise trivets onto them.  
The stock of each model available is underneath!

*Each chair model has its own cushion!*

Present the different models adapted to your seats.  
It's important to show the different models and colours!

### Cuub

Make piles with the Cuub packages, with each colour story presented.

Don't forget the display especially designed for the CUUB offer

### Alto

Combine your trays in stacks on a table. This will present the available sizes and colours!

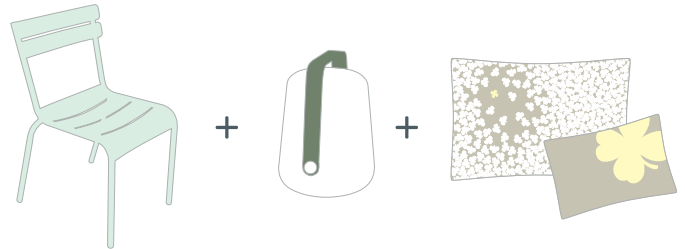

# Boost lighting sales

WITH AN APPEALING, CAPTIVATING DISPLAY

## Fermob's recipe

Fermob: designing products for our outdoor spaces.

For gardens and terraces where life is good, Fermob has the winning recipe and the key to success for landscaping your little bit of paradise!

## Focus on connected lighting

INNOVATIVE AND ATTRACTIVE PRODUCTS TO BE TESTED BY CUSTOMERS

Devote an area to presenting the Fermoblighting app :

- A Fermoblighting POS
- Touch screen with paired lighting available,
- 2 or 3 lights ready to be paired!

# Boost lighting sales

WITH AN APPEALING, CAPTIVATING DISPLAY

## Focus on Hoop

AN AERIAL LIGHTING SOLUTION

### Our tips

Hang up your Garland LI 200 with its suspension stand.

Present **several** packages nearby.

Hang your Hoop LI 200 above a lounge set or a large table.

*They're going to love it!*

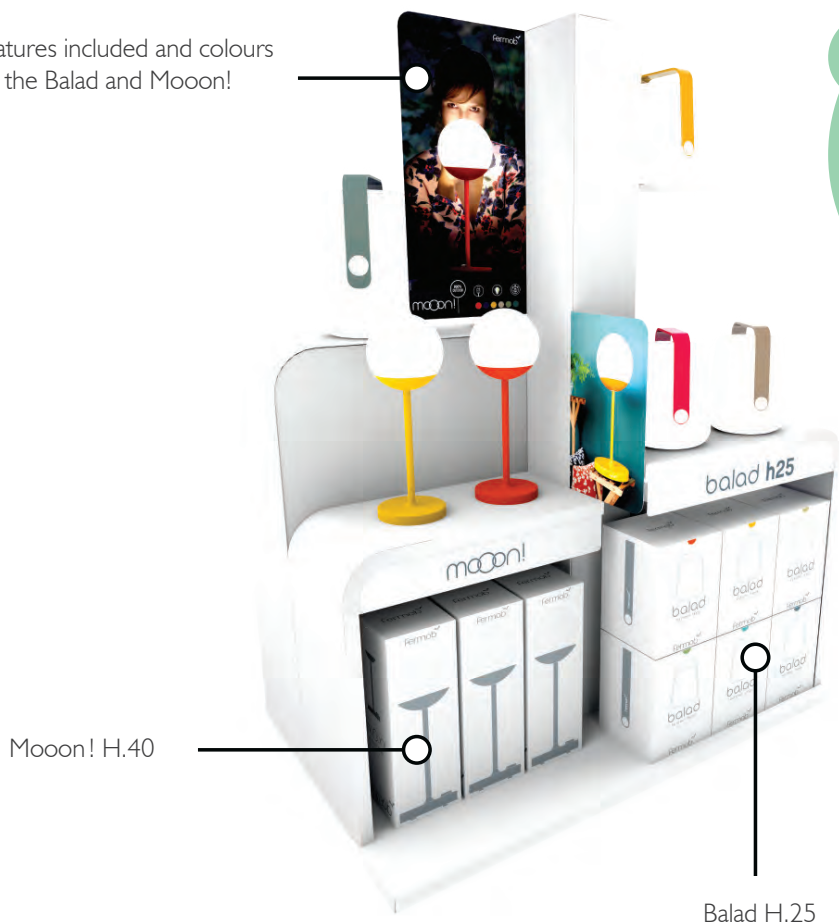

# Focus on Cash & Carry

## PRODUCTS THAT GENERATE TURNOVER

A lighting display that lets you **PROMOTE**, **STORE** and **RECHARGE** lamps directly with the multi-port socket included.

Technical features included and colours available for the Balad and Moon! models.

💡  
Specially designed for the BALAD and MOON! range!

### MATERIALS

ACRYLIC	<p>Synthetic fibre that is soft and silky to the touch, does not pill, and is ultra-light. Fermob mainly uses Dralon® acrylic, which is widely employed in outdoor textiles because of its numerous advantages:</p> <ul style="list-style-type: none"> <li>- extremely resistant to tearing, snagging and wear</li> <li>- rotproof (i.e. prevents the formation of mould)</li> <li>- keeps its shape: can be folded even when wet, does not shrink or expand</li> <li>- does not retain heat or moisture</li> <li>- water-repellent</li> <li>- UV-resistant – the fibre is solution-dyed (not fabric-dyed) for improved colour-fastness; Dralon® fabric is extremely resistant to sunlight and intensive washing (average 6/7 on a scale of 8)</li> <li>- resistant to temperature variations (-30° to +70°C)</li> <li>- resistant to chemicals</li> <li>- easy to clean: machine-washable at 30°C, no ironing required.</li> </ul>
ALUMINIUM	<p>Metal alloy that is three times lighter than steel. At Fermob, this malleable metal is used to manufacture tailor-made profiles (specially shaped tubes). Fermob mainly uses superior-grade aluminiums for their robustness and more uniform thickness.</p> <p>Aluminium furniture is recommended in humid or coastal climates, since the material does not corrode.</p>
CAST ALUMINIUM	<p>This name refers to a light alloy used to make moulded aluminium parts.</p>
CAST IRON	<p>Cast iron is a carbon-rich iron alloy. Its density, weight and sturdiness mean that it is ideally suited for stability purposes. Fermob mainly uses cast iron for pedestal table (Concorde).</p>
DRALON	<p>A woven textile made from synthetic fibre that offers excellent resistance to water, stains and UV rays. It is soft in texture, bright in appearance, rot-proof and easy to clean.</p>
DURAFLON®	<p>Exclusive to Fermob, this polymer (a type of plastic) is used to manufacture Bistro chair slats. Very similar to metal in design, it is a light, comfortable material that is guaranteed to be sturdy and UV-resistant and does not retain heat.</p>
FERMOB PAINTS	<p>Fermob uses polyester powder coatings, which offer several benefits :</p> <ul style="list-style-type: none"> <li>- polyester (polymer) is highly resistant to UV and weather conditions</li> <li>- powder coatings are highly resistant to impacts. These eco-friendly coatings contain no solvents or lead and are fully aligned with Fermob's environmental policy.</li> </ul> <p>Fermob offers three furniture paint finishes:</p> <ul style="list-style-type: none"> <li>- Smooth: a uniform, regular surface, with no bumps, showing off the paint colour in its best light.</li> <li>- Textured: a slightly textured surface with a more matt finish and enhanced scratch resistance. This finish is generally preferred for large tables.</li> <li>- Speckled textured: contains aluminium or pearl particles that bring out the bright side of the paint colour.</li> </ul>
FOAMS	<p><u>ETHYLENE-VINYL ACETATE (EVA) FOAM</u> A dense, compact, hard-wearing foam (no cells or air bubbles) that's lightweight and easy to mould.</p> <p><u>HIGH-RESILIENCE PU FOAM</u> A polyurethane foam selected by Fermob for its ability to return to its original shape after deformation, even following an extended period of use.</p> <p><u>OPEN-CELL FOAM</u> A foam that allows liquid to pass through. It does not retain water and dries very quickly, meaning that the cushion does not stay wet.</p> <p><u>POLYESTER FOAM</u> A PU-type foam with open cells and variable density. This versatile foam is typically used to make padding and occasional seats.</p>

FOAMS	<p><u>POLYETHYLENE FOAM (closed-cell)</u> A foam used for thermal insulation and for air-, water- and dust-proofing.</p> <p><u>POLYURETHANE (PU) FOAM</u> A high-quality foam known for its firmness and comfort. It consists of fine closed cells enclosing a low thermal conductivity gas. It makes an excellent thermal insulator.</p> <p><u>RETICULATED FOAM</u> A foam with very fine, regular closed cells. This is a rot-proof and waterproof foam.</p>
JACQUARD FABRIC	<p>On a Jacquard fabric, the patterns are made by criss-crossing threads. The Jacquard loom, developed in 1801 by Joseph Marie Jacquard from Lyon, is capable of creating weaves with complex patterns.</p>
Outdoor Technical Fabric (OTF)	<p>Outdoor Technical Fabric (OTF) is a Batyline fabric (manufactured in France by the world's leading firm, Serge Ferrari). This polyester and solution-dyed PVC technical fabric offers exceptional colour-fastness. OTF keeps its shape, is light, flexible and sturdy, and does not deteriorate over time. It is resistant to both moisture and micro-organisms, and is treated with an anti-fungal product. OTF is easy to clean with soap and water.</p>
SKAI® OUTDOOR IMITATION LEATHER	<p>Fabric coated with a synthetic material that imitates the natural grain of leather, with its texture, colour tones and softness.</p> <p>For the Lorette padded chair, bridge and low armchair, Fermob has selected Skai® Neptun Caleri fine-grain imitation leather (88% PVC, 10% polyester and 2% nano-component). This innovative, cutting-edge material is designed chiefly for demanding outdoor environments and for commercial, professional and public premises (such as boats and yachts). Waterproof, tearproof and resistant to mould, chlorine and UV, it is made to last.</p>
SOLUTION-DYED (textile)	<p>Fermob uses solution-dyed textiles (the dye is applied to the fibre, not the surface). This dyeing technique means that the colour lasts five times longer than a conventional dye.</p>
STAINLESS STEEL	<p>Stainless steel is an alloy of steel and chromium that is highly resistant to corrosion and rust. Fermob uses stainless steel to make the screws for its products.</p>
STEEL	<p>All the steels (metal alloys) we use are manufactured to precise specifications.</p> <p><u>COLD-ROLLED STEEL</u> The laminated steel is passed through a set of rollers, which transform it from a block into a sheet (e.g. table top). Cold rolling is Fermob's technique of choice, since it makes the steel more resistant, gives it a precise, uniform thickness, and promotes better paint hold.</p> <p><u>ELECTRO-GALVANISED STEEL</u> This technique involves applying a layer of zinc to the surface of the steel, to delay the onset of corrosion.</p> <p><u>GALVANISED STEEL</u> A thicker layer of zinc is applied to the surface to offer even greater corrosion protection.</p>
TEAK (grade C)	<p>Teak is a tropical tree that belongs to the Verbenaceae family. It produces oleoresin, making it naturally resistant to inclement weather.</p> <p>The wood is highly prized in the shipbuilding and garden furniture sectors. Fermob sources its teak from government-controlled plantations in Indonesia (with certified reforestation programmes). Grade C teak comes from the outer layers of the tree.</p>
TEXTROL	<p>Natural plant oil-based wood saturator that helps wood retain its natural appearance for a long time. Does not form a film or chip off, does not peel away over time, does not darken under the effect of UV rays. Fermob uses this product on its Bistro Natural chairs.</p>
YARN-DYED ACRYLIC FIBRE	<p>A yarn-dyed synthetic fibre is dyed on the yarn after it has been manufactured.</p>

# Glossary

## TECHNICAL

### PROCESSES

LASER CUTTING	This involves using a laser beam to cut a piece of metal. At Fermob, the technique is used to cut a detailed, precise pattern into sheet metal.
HYDROFORMING	A manufacturing process in which a material is shaped by injecting a high-pressure fluid and working with the material. This process is mainly used in high-tech industries such as aerospace.
THERMO-COMPRESSED	A seamless cushion finish. This technique means the cushion can be perfectly adapted to the shape of the chair. Because there are no seams, the fabric is even more resistant to outdoor conditions (Skin, Kate and Bistro chair cushions).

### TREATMENTS/CONCEPTS

ABRASION	Wear caused by rubbing.
ANTI-UV	Anti-UV treated products are resistant to alteration cause by ultraviolet rays (present in sunlight and moonlight), meaning colours do not fade over time. All Fermob products are UV-resistant.
ELECTROLYTIC COATING	A surface treatment originally used in the automotive industry. An electrophoresis paint (sub-layer) technique where a part is immersed in a bath of water-soluble paint. Electrolytic coating means that the product benefits from Very High Protection treatment and is suited to intensive use or use in extremely wet/humid environments.
WATER-REPELLENT	A water-repellent fabric does not instantly absorb water droplets. Instead, water slides off the surface. This property is either natural or the result of treatment. However, if the water is not removed quickly, it will end up being absorbed into the fibre (water-repellent is not the same as waterproof).
ELECTROSTATIC COATING	An eco-friendly painting technique that involves using powder instead of solvent-based paints. An electrostatic force attracts the powder coating to the metal, achieving optimal coverage. The coating is then baked onto the furniture.
COATING	A treatment process in which a coating is applied to the surface of a textile to make it waterproof.
STOVING	A process by which a product is left in a heated chamber until all water is removed (before painting). This is a critical stage of the process, ensuring that the paint attaches firmly to the raw material.
WATER-RESISTANT	Offers long-lasting protection against moisture.
ROTPROOF	Guarantees against the formation of mould over time. This is an important guarantee for outdoor products.
SILENCING PADS	An exclusive, patented technology that allows furniture to slide effortlessly across the floor and features an integrated shock absorber to reduce vibrations. Comes as standard on Croisette, Facto, Kate, Luxembourg®, Luxembourg® Kid table, Monceau, Pétale, Rythmic, Salsa and Stripe. NOISE REDUCTION OF 14 DB = 10 TIMES QUIETER!
TEFLON™	A special treatment from DuPont that, when applied, makes fabrics stain-resistant and water-repellent.

ZERO-GRAVITY POSITION	<p>The “zero-gravity” position, as found on the Alizé sunlounger, is perfect for relaxing and is widely recommended by medical professionals.</p> <p>It is this position, with the legs positioned slightly above the heart, that the body adopts in a weightless state. The position was named by NASA in the 1970s.</p> <p>The sensation of gravity is reduced seven-fold, similar to when the body is floating in water.</p> <p>The legs are raised and the thighs and trunk form an angle of 127 degrees, thereby:</p> <ul style="list-style-type: none"> <li>• Significantly easing pressure on the lower back and spine.</li> <li>• Reducing tension in the lower back muscles.</li> <li>• Promoting improved blood flow in the legs and reducing strain on the heart.</li> <li>• Freeing up the rib cage and allowing the lungs to expand, which improves oxygenation.</li> </ul>
--------------------------	--

## STANDARDS

NF EN 1022	Seat stability standard.
NF EN 581-1 NF EN 581-2 NF EN 581-3	European standards setting out general safety, resistance and durability requirements for outdoor seats and tables.

## RATINGS

IK	Defines the strength of a device against knocks and impacts. The test is carried out with a steel vertical or pendulum hammer. The rating ranges from 00 to 10.
IP	Defines the degree of protection provided by the equipment against the penetration of solid bodies (1st figure) and liquid bodies (2nd figure). The rating ranges from 00 to 68.

## UNITS OF MEASUREMENT

KELVIN (K)	Measures the colour temperature of the light. It indicates whether the white light is warm (yellow shade) or cold (blue shade). It varies depending on the source. The higher this figure, the more bluish-white the colour temperature, while light with a lower colour temperature tends towards the red end of the scale.
LUMEN (Lm)	Measures the luminous flux of lighting, in all directions at once.
